

**EV Charging Solutions**  
Install, Service, Maintenance

## Building Value Through Turn-Key EV Charging Solutions

**ABM has teamed with the world's leading producers of EVSE and electrical equipment to bring the best experience in the electrical vehicle business.**

As one of the largest EVSE supply and installation companies, and with 109 years of providing facility upgrade services, we can provide a unique position in the industry. ABM has also created many other exciting innovative programs, such as EV Station Monitoring and Maintenance programs for clients including public utilities, federal government, and commercial clients. We engage with utility companies on a national scale and have been working to create and propose legislation that will simplify the Electrical Permitting process across jurisdiction. We have succeeded in creating industry-first programs and awarded several California Energy Commission EV Grants, State of Maryland EV Grants, and EV Installation contracts with many local and Federal Government clients.

**ABM's hands-on field experience spans all facets of project lifecycles**

- Client education and training
- Site evaluation/preparation
- Product selection and acquisition
- Electrical engineering
- City permitting
- Installation and signage
- Electrical load testing
- Federal and local regulations
- Centralized monitoring and troubleshooting
- Equipment failures
- Warranty repair
- Monthly maintenance and testing

In the rapidly changing EV market, the options can be confusing and even risky. Solutions can range from simple to sophisticated - and from practical to premium. But, there is no need to go it alone. ABM has the experience and resources to help with all your EV Charging needs.

# Why ABM EV Charging Solutions?

**ABM's vast experience in the EV industry can save you time and money while ensuring you get the solution to match your unique needs.**

## **Proven Experience**

We have successfully installed over 8,000+ charging stations nationwide. ABM considers the following when installing EV charging stations:

- Rotation and Traffic Flow for vehicle charging
- Future Capacity
- Extra and/or larger diameter conduit for future proofing
- Add panel near chargers
- Incremental cost to add chargers later
- If trenching, add capacity for future growth

## **Full-Service Provider**

ABM is your single source for all of your EV charging needs. We can provide the latest and most innovative EV Charging infrastructure, ensuring your charging stations are quickly and seamlessly installed and keep your stations safe, clean and reliable.

## **ABM EV Charging Capabilities:**

- Equipment Sales
- Site Evaluations and Estimating
- Installation Services
- Warranty Service & Repairs
- Electric Testing
- Preventative Maintenance
- Eco-friendly Cleaning

## ABM National Accounts provides Warranty and Installation support for:

ABB

ChargePoint  
*Software and Hardware*

Delta  
Electronics

Efacec

eMotorWerks

EVBox

innogy

Tritium

## Summary of ABM Experience in the New & Growing EVSE Industry:

### **ABM's turn-key solution**

approach includes full sales support, seasoned electrical expertise, and breadth of coverage for live station monitoring, remote diagnostics, client training and education, and a full line of after-market offerings like warranty service, repair, and in-field maintenance.

### **ABM has developed one of the first EV charging station Maintenance programs**

which utilizes ABM GreenCare™, LEED, and eco-friendly products in monthly cleaning and inspection, testing and certification.

### **ABM has installed thousands of EV stations nationally**

at retail centers, parking garages, corporate offices, city, state and county buildings, public parking areas, auto dealers, apartment complexes, and homes.

### **Included in our full-line maintenance program**

is one of the first EV Test Simulators, with development and improved design influenced by ABM for operational and electrical testing and reporting.

### **ABM has hundreds**

of EV charging stations under monitor and maintenance agreements.

### **ABM provides ChargePoint provisioning services**

that include site-specific messaging and programming with placement on the global map.

ABM has met the growing demand for EV Charging Station solutions by proactively engaging the market for years. Through this experience we have developed best practices and standardized pricing and processes.

**ABM provides national training to our installers**

through webinars, videos, and in-person training on all aspects of EV charging station hardware and software.

**To meet growing market demand,**

ABM started an EVSE Sales Support Desk which is accessible nationwide (1-866-226-2838).

This unit is dedicated to the support of EV installation and sales for all ABM and affiliated field units and especially for clients wanting EVSE.

**ABM has gained broad EVSE experience**

by working with multiple equipment manufacturers. This experience allows us to best understand the market offerings and to always provide the best fit for our client needs. This experience also elevates our confidence in recommending ChargePoint for Mercedes-Benz as their products have been the most reliable and most capable products, while our clients and our support teams continue to give our vendor solutions high marks in satisfaction.

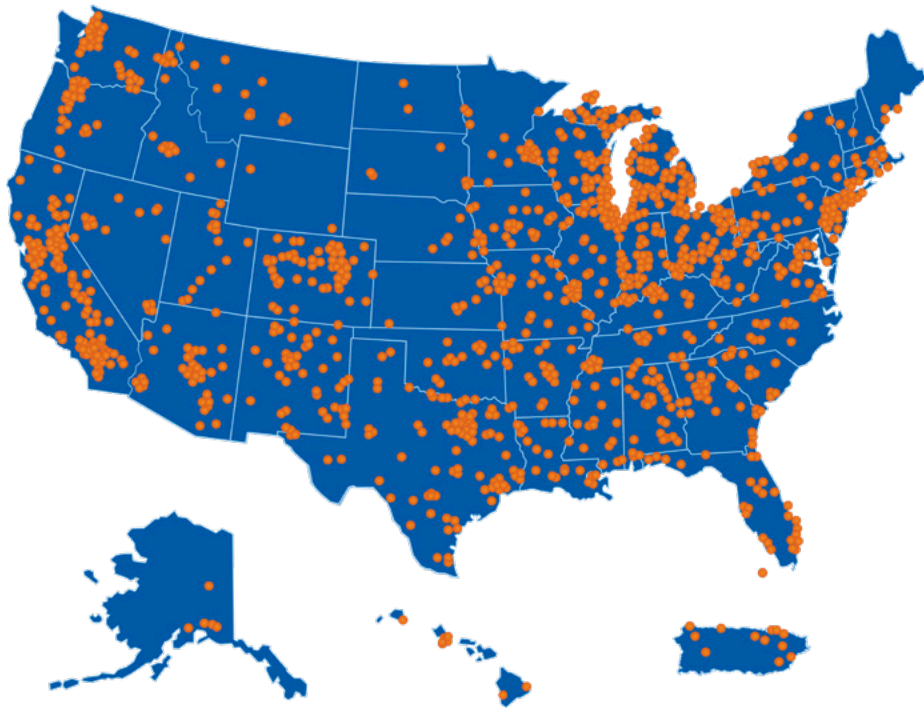

**ABM Energy was nominated**  
for an EV-Readiness  
2012 award.

**ABM mobile technicians**  
carry wireless mobile computers with access to ABM "M-Tube", a training and quality site that carries content specific to insure consistent quality delivery every time.

**ABM is uniquely positioned**  
with mobile service offices with certified licensed electricians to provide the highest quality installations.

## Nationwide Support

As an industry leader, we have established best practices, and implemented them in successful installations throughout the United States. With state certified electricians in almost every major geographic market, we have the qualified resources to get it right the first time, with minimal interruptions to your daily operations.

## About ABM

ABM (NYSE: ABM) is a leading provider of facility services in the United States and various international locations. ABM's comprehensive capabilities include janitorial, electrical & lighting, energy solutions, facilities engineering, HVAC & mechanical, landscape & turf, mission critical solutions and parking, provided through stand-alone or integrated solutions. ABM provides custom facility solutions in urban, suburban and rural areas to properties of all sizes - from schools and commercial buildings to hospitals, data centers, manufacturing plants and airports. ABM Industries Incorporated, which operates through its subsidiaries, was founded in 1909. For more information, visit [ABM.com](http://ABM.com).
