

Adapt to the Challenges of the Evolving Automotive Industry with Reliable Facility Services from ABM

With clients in diverse segments of the automotive industry, ABM delivers both the expertise and standard operating procedures that drive value and outcomes to help optimize your operations.

Here are four reasons to partner with ABM.

1. OPERATE EFFICIENTLY

ABM understands how important it is to run your facility efficiently. To reduce downtime, ABM teams provide reliability-centered maintenance that keeps your equipment running well. This ensures that your facility is always staffed at full capacity by providing you with staff from ABM's large labor pools. Plus, all service personnel are ABM employees, so you receive reliable, quality service without having to deal with labor management.

2. CULTURE OF SAFETY

ABM team members are empowered with safety tools and resources that encourage them to consider the safety of the people, materials, and environment they interact with in your facilities. Through regular, documented training, they learn about key safety topics to prevent injuries and accidents. ABM also provides teams with access to the OSHA safety mobile app.

3. INTEGRATED FACILITY SERVICES

As experts in all facets of facility services, ABM is able to provide integrated solutions that streamline your vendor relationships. No matter how many services you need, ABM offers a holistic approach to facility services, which allows you to focus on your core business.

4. AUTOMOTIVE EXPERTISE

ABM works with more than 45 clients in the automotive industry and is an expert in servicing facilities just like yours. ABM's in-house staff understands the impact that regulatory requirements and consumer demands have on your business, ensuring that ABM teams are well-poised to help you.
